# QASIM ALI

**Junior Software Engineer | Full Stack Developer**
Islamabad, Pakistan | +92 310 8028536 | qasim.aliii019@gmail.com
github.com/Qasimali-019 | linkedin.com/in/qasimaliii019 | portfolio-new-nu-green.vercel.app

## PROFESSIONAL SUMMARY

Full Stack Developer and Computer Science student with hands-on experience building and delivering live software for paying clients as a sole developer. Currently working as a Full Stack Developer Intern (QA & Development) at Outscalers Pvt Ltd, performing software testing and bug verification on live web applications. Proficient in Node.js, Express.js, React.js, TypeScript, PostgreSQL, and REST API design, with strong OOP fundamentals in JavaScript, TypeScript, C++, and Java. Experienced in end-to-end project delivery, including system architecture, database design, authentication, and role-based access control (RBAC).

## TECHNICAL SKILLS

**Languages:** JavaScript (ES6+), TypeScript, C++, Java, C#, HTML5, CSS3
**Frameworks & Libraries:** Node.js, Express.js, React.js, Tailwind CSS
**Databases:** PostgreSQL, MySQL, MSSQL, MongoDB, SQLite, Redis
**Tools & Platforms:** Git, GitHub, Docker, Vercel, Netlify, SendGrid, Twilio
**Concepts & Practices:** REST API Design, JWT Authentication, Session Management, RBAC, Database Design and Normalization, System Architecture, OOP, QA/Software Testing, Bug Tracking
**Currently Learning:** PHP, Laravel, Next.js

## PROFESSIONAL EXPERIENCE

**Full Stack Developer Intern (QA & Development)** | Jul 2026 – Present
*Outscalers Pvt Ltd* | *Rawalpindi, Pakistan (On-site)*
- Perform QA and software testing on live web applications, covering test modules, end-to-end workflows, user roles, and permissions.
- Identify, document, and verify bugs and fixes, analyzing requirements to confirm each fix matches expected application behavior.
- Contribute to full stack development on live projects alongside the development team, working across frontend and backend codebases.

**Full Stack Developer (Sole Developer)** | 2026 – Present
*Siratul Mustaqeem (Client)* | *Islamabad, Pakistan* | *siratal-mustaqeem.org*
- Architecting a complete Islamic guidance and community web application from scratch, covering system architecture, UX wireframes, React/TypeScript component hierarchy, and a fully normalized PostgreSQL schema.
- Engineered secure authentication, session management, RBAC, and activity feeds.
- Applied advanced React patterns, including custom hooks, Context API, and lazy loading.
- **Tech Stack:** React.js, TypeScript, Node.js, Express.js, PostgreSQL, REST API

**Full Stack Developer (Sole Developer)** | 2025 – Present
*Dollar Quetta (Client)* | *Quetta, Pakistan*
- Sole developer of a live POS and inventory management platform, matching the scope of the SuperChina system on an independent tech stack.
- Designing and building the frontend and backend architecture using Node.js, React.js, and PostgreSQL.
- Extending the platform with an integrated e-commerce storefront (in development).
- **Tech Stack:** React.js, Node.js, Express.js, PostgreSQL, REST API

**Full Stack Developer (Sole Developer)** | Jul 2024 – Sep 2024
*SuperChina (Client)* | *Quetta, Pakistan*
- Delivered a live, production-level POS and inventory management platform for a paying business as sole developer, on time and without supervision.
- Built the backend with Node.js, Express.js, and MSSQL to handle live stock reconciliation, revenue calculations, COGS tracking, and RBAC for Admin and Cashier roles.
- Developed a refund engine that reverses inventory, revenue, and profit in real time, and prevents duplicate refunds by locking processed bills.
- **Tech Stack:** TypeScript, React.js, Node.js, Express.js, MSSQL, REST API

## PROJECTS

**Event Bookings – Smart Event Management Platform** | Mar 2026
- Built a production-ready platform supporting in-person, virtual, and hybrid events with ticketing, attendee check-in, and post-event analytics.
- Developed a workflow automation engine that triggers email and SMS notifications via SendGrid and Twilio.
- Implemented Redis caching, rate limiting, and four-tier RBAC (User, Admin, Organizer, Host).
- **Tech Stack:** React.js, Node.js, Express.js, MongoDB, Redis, JWT, REST API

## EDUCATION

**Bachelor of Science in Computer Science** | Sep 2023 – Jun 2027 (Expected)
*Air University* | *Islamabad, Pakistan*
- Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Systems, Software Engineering
- Independently learned Node.js, TypeScript, and PostgreSQL outside the formal curriculum.
